**Methodology**

WPAi conducted a poll of n = 400 likely special Republican primary election voters in Virginia CD 7. Respondents were contacted via live telephone interview on May 13-15, 2019 with 45% of the interviews conducted via cell phone. The survey has a margin of error of 4.9%. Sample was selected from the Virginia voter file with the probability of selection being equal to the probability of voting in the special election in WPAi's turnout model for this race. Sample was stratified by age, gender, and geography to ensure accurate representation of the district.
