Methodology

WPAi conducted a poll of n = 500 likely Republican primary voters in North Carolina. Data was collected by live telephone interview November 1-3, 2021. Fifty-five percent (55%) of interviews were conducted to landline phones and 45% to cell phones. The sample was selected from the North Carolina voter file and was stratified by geography, age, gender, and vote history to ensure a representative sample. The survey has a margin of error of $\pm 4.4\%$ at the 95% confidence level.
