Methodology

WPAi conducted a poll of n = 513 likely Republican primary voters in Alabama. Data was collected by live telephone interview January 25-27, 2022. Forty-four percent (44%) of interviews were conducted to cell phones and 56% to landline phones. The sample was selected from the Alabama voter file and was stratified by geography, age, gender, and vote history to ensure a representative sample. The survey has a margin of error of $\pm 4.4\%$ at the 95% confidence level.
